TECHNICAL SPECIFICATIONS

Type:	Maximum thermometer
Measurement range:	32 and 42 °C Temp. < 32.0 °C: display «L» for low (too low) Temp. > 42.0 °C: display «H» for high (too high)
Measurement accuracy:	± 0.1 °C (from 35,5 and 42,0 °C) and ±0,2 °C (from 32,0 and 35,5 °C)
Operating conditions:	temperature 5 - 35 °C; ≤ 80% relative maximum humidity
Storage conditions:	temperature from -25 to 55 °C; ≤ 95% relative maximum humidity
Minimum scale:	0,1 °C
Battery:	1.5 V (LR41)
Battery lifetime:	100 hours in continuous operation
IP Class:	IP22
Reference to standards:	EN 12470-3, clinical thermometers; IEC 60529
Expected service life:	3 years

This device complies with the requirements of the Medical Device Directive 93/42/EEC.

We reserve the right to apply technical changes.
